Karleah	Berris	SA Glossies
Gabriel	Crowley	Adelaide University
Gabriel	Conroy	University of the Sunshine Coast
Adrian	Caneris	Glossy Black Conservancy (observer)

Meeting minutes

1. Acknowledgement of Country The Chair acknowledged Country as well as Elders past and present	Daniella Teixeira
2. Threats diagram update Guy Castley presented the diagrammatic representation of threats and their interactions. Members present were in favour of using this diagram to represent threats in the Recovery Plan. It was noted that we need to think about	Guy Castley

<p>'lack of knowledge' and how this is phrased and referred to in the body of the plan. The diagram needs to reflect the text / narrative in the Recovery Plan. Work also needs to be undertaken on a caption or some narrative to describe the diagram.</p>	
<p>3. Regional threats - Prioritisation of threats Sam presented data submitted through a Google Form to document the significance of threats impacting regional locations / project areas.</p> <p>Action: Sam to update matrix of regional threats and attempt to re-order threats in draft plan based on significance</p>	<p>Sam Morris and Daniella Teixeira</p>
<p>4. Objectives, strategies and actions</p> <p>Prioritising actions - Dani would like to see cost estimate in the Plan (this could be a scale-based cost, such as low-cost, moderate-cost, high-cost). A cost-benefit analysis alongside likelihood of success and benefit to the species, could be beneficial. Tim commented that costs are now being removed from Recovery Plans but agreed that a tiered system for costs would be beneficial - a relative measure of cost-effectiveness.</p> <p>Tim also mentioned that prioritisation of actions / strategies based on region could be beneficial. This work has largely already been completed.</p> <p>Action: Dani to find out if other Recovery Plans have included costs / used costs in a prioritisation framework. Lauren mentioned that there is a Business Plan for their region for the eastern bristlebird.</p> <p>Action - Dani to consider prioritisation of actions v strategies prior to 13 August meeting.</p>	<p>Daniella Teixeira</p>
<p>5. Other business</p> <p>Next meeting - all members to review actions and ensure priority actions are captured.</p>	<p>Everyone</p>
<p>Next meeting</p> <p>Wednesday 30 July, 1.30 - 3.00pm (QLD time) - focus on ensuring all actions are captured</p> <p>Wednesday 13 August, 10.30am - 12 noon (QLD time) - focus on prioritisation or cost-effectiveness of actions</p>
